

Rope Access Training

Rope Access Training

AccessRescue provides a variety of rope access training that gives students hands-on knowledge and understanding of the skills utilized in their work environment. Efficient, simple, hands-on methods that exceed industry standards.

- Basic Rope Access
- Bridge Access, Safety and Rescue
- Rope Access for Responders
- Rope Access for Tower Workers
- Rope Access Level I
- Rope Access Level II
- Rope Access Level III
- Courses available in Spanish

SPRAT Certification

We offer training that will meet (and exceeds) the certification requirements of SPRAT (Society of Professional Rope Access Technicians). In addition, AccessRescue provides certified SPRAT evaluations.
